PRE AND POST-DIVE CHECKLIST**

Dive Plan Reference #: _____ Date: _____ Location: _____

PRE-DIVE CHECKLIST

Dive Plan Safety

Each dive objectives and goals are well defined and understood by all divers and support personnel involved.
Each team member understands his/her role in the planned operations and is authorized to conduct that role.
The Diving Emergency Action Plan is accurate, present on-site, and been reviewed by all personnel.

Dive site conditions and hazards have been assessed and discussed with all team members.
Entry and exit points have been identified and understood by all team members.
Maximum depth and dive profiles have been discussed with all team members.
Repetitive dive designations have been considered when planning any dives to come.
Minimum cylinder pressure upon return is understood by all team members.
Support personnel understand all communication methods and emergency protocol in the event of an incident and can properly respond
The planned dive is designated a scientific dive and operates within those constraints defined in the dive safety manual.

Equipment

All equipment is in good working order and ready for the planned operations.
All equipment is appropriate for the planned activity and team members are trained to use the equipment.
